## Excerpt from: PLAGIARISM/CHEATING/OTHER ACADEMIC MISCONDUCT

### **A. Definitions**

1. **Plagiarism** - essentially plagiarism involves submitting or presenting work in a course as if it were the student's own work done expressly for that particular course when, in fact, it is not. Most commonly plagiarism exists when:

- (a) the work submitted or presented was done, in whole or in part, by an individual other than the one submitting or presenting the work (this includes having another impersonate the student or otherwise substituting the work of another for one's own in an examination or test)
- (b) parts of the work are taken from another source without reference to the original author
- (c) the whole work (e.g., an essay) is copied from another source, and/or
- (d) a student submits or presents work in one course which has also been submitted in another course (although it may be completely original with that student) without the knowledge of or prior agreement of the instructor involved.

While it is recognized that scholarly work often involves reference to the ideas, data and conclusions of other scholars, intellectual honesty requires that such references be explicitly and clearly noted. Plagiarism is an extremely serious academic offence.

It is recognized that clause (d) does not prevent a graduate student incorporating work previously done by him or her in a thesis or dissertation.

2. **Cheating** is an extremely serious academic offence. Cheating at tests or examinations includes but is not limited to dishonest or attempted dishonest conduct such as speaking to other candidates or communicating with them under any circumstances whatsoever; bringing into the examination room any textbook, notebook, memorandum, other written material or mechanical or electronic device not authorized by the examiner; writing an examination or part of it, or consulting any person or materials outside the confines of the examination room without permission to do so, or leaving answer papers exposed to view, or persistent attempts to read other students' examination papers.

3. **Other Academic Misconduct** - other academic misconduct includes, but is not limited to, tampering or attempts to tamper with examination scripts, class work, grades and/or class records; failure to abide by directions by an instructor regarding the individuality of work handed in; the acquisition, attempted acquisition, possession, and/or distribution of examination materials or information not authorized by the instructor; the impersonation of another student in an examination or other class assignment; the falsification or fabrication of clinical or laboratory reports; the non-authorized tape recording of lectures. All of these offences are extremely serious.

4. Any student who voluntarily and consciously aids another student in the commission of one of these offences is also guilty of academic misconduct.

### **B. Penalties**

1. **Failing Grade** - a student may be given a failing grade in either an exercise or course in which that student is found guilty of plagiarism, cheating or other academic misconduct. Except in circumstances in which leniency is warranted, this penalty will only be applied in conjunction with one or other of the other penalties mentioned in this section. In situations in which a student is registered in a faculty other than that in which the course is given, this is the only penalty which shall be applied by the host faculty.

2. **Disciplinary Probation** - when a student is placed on disciplinary probation, he or she is entitled

to proceed with a degree or other academic programme, but only on condition that the registration will be forfeited and the student suspended or expelled, if she or she is found guilty of a further academic offence. A student who is placed on disciplinary probation is eligible to continue in the faculty in the normal way after the satisfactory completion of his or her probationary period. This penalty shall be applied by the faculty in which the student is registered.

3. Suspension - suspension takes place when a student is denied registration within a degree or other academic programme for a specified period of time. A student who has been placed under suspension is conditionally eligible to reapply for admission or registration at either the end of a specified period of time or thereafter. Suspension does not imply automatic readmission; a student must satisfy the dean and/or the faculty concerned of his/her eligibility for readmission. This penalty shall be applied by the faculty in which the student is registered.

4. Expulsion - a student who is expelled from a faculty is dismissed permanently from the faculty with no right to apply for readmission to that faculty. This penalty shall be applied by the faculty in which the student is registered.

5. Effects of Suspension or Expulsion from a Faculty - a student suspended or expelled from a faculty normally may not apply or be considered for readmission to the university in another faculty, until at least twelve months after the end of the session in which the academic offence takes place.

6. Expulsion from the university - if, upon suspending or expelling a student from a faculty, the dean and/or faculty determine that the severe sanction of expulsion from the University is warranted, such a recommendation may be made to the Vice-President (Academic) and Provost, who may act to expel the student from the University.
